PROFESSIONAL SUMMARY

Full-Stack Web Developer specializing in React.js and Python, with hands-on experience building responsive web applications and RESTful APIs using Django, Django REST Framework, and Flask. Experienced in authentication, database integration, frontend/backend development, API integration, testing, and cloud deployment. Focused on building clean, maintainable, and reliable web applications.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

Frontend: React.js, HTML5, CSS3, Bootstrap, Responsive Web Design, Vite

Backend: Django, Django REST Framework, Flask, RESTful APIs, JWT Authentication, Authentication & Authorization, CORS

Databases: PostgreSQL, MySQL, SQLite, SQLAlchemy

Deployment & Hosting: Vercel, Render, Railway, PythonAnywhere

Tools: Git, GitHub, Postman

AI / API Integration: AI API Integration, Third-Party API Integration

EXPERIENCE

Full-Stack Developer — Personal Projects

2025 – Present

- Built full-stack web applications using React.js on the frontend and Django and Flask on the backend.
- Designed and developed RESTful APIs, including endpoints for authentication, data management, and business logic.
- Implemented authentication and authorization using JWT, covering user roles and access control.
- Modeled and managed relational databases with PostgreSQL, MySQL, and SQLite.
- Integrated frontend and backend systems, ensuring smooth data flow and responsive user interfaces.
- Deployed applications to production using Vercel, Render, Railway, and PythonAnywhere.
- Tested and debugged APIs using Postman to validate endpoints and troubleshoot issues.

PROJECTS

NovaCart — Full-Stack E-Commerce Platform — React.js, Flask, SQLAlchemy, PostgreSQL/MySQL, Bootstrap

- Developed a full-stack e-commerce application with React.js on the frontend and Flask on the backend.
- Built secure JWT authentication and role-based authorization for customers and admins.
- Implemented shopping cart, order management, user profiles, and an admin dashboard.
- Designed RESTful APIs and integrated SQLAlchemy with PostgreSQL/MySQL for data persistence.
- Built a responsive UI with Bootstrap for a consistent experience across devices.

MK Web Studio — Business Website & Service Platform — React.js, Django, Django REST Framework, PostgreSQL, Bootstrap

- Built a responsive business website with a Django REST API backend and PostgreSQL database.
- Implemented service and content management with an admin-side interface for updates.
- Integrated the React.js frontend with the Django backend for dynamic content delivery.
- Deployed and publicly accessible — [Live Demo](#)

Portfolio Website — React.js, Vite, CSS

- Responsive personal portfolio showcasing projects, technical skills, and web development experience.
- Deployed on Vercel — [Live Demo](#)

CORE COMPETENCIES

Full-Stack Web Development • Django & Django REST Framework • Flask Backend Development • React.js Development • RESTful API Development • Authentication & Authorization • Database Design & Integration • API Testing & Debugging • Frontend/Backend Integration • Cloud Deployment • Git & GitHub

LANGUAGES

Arabic — Native English — Intermediate
